

Logline

A teenager's most important decision, changing his/her gender sex causes a domino effect that will turn her family's life into roller coaster ups and downs.

Lety is a "two spirit", a pan-Indian term for individuals that have both a masculine and a feminine spirit sharing one body and holding a mystical power; someone who changes his gender sex or belongs to a third-gender."

Storyline

Today is the day I am re-born. Today, no matter what, I stop pretending being someone else. Today I am not rising from my ashes for this is no melodrama, but I do rise and overcome my fears, my insecurity and stop caring about what other people might say about me. And... okay, there will be some drama for I don't expect to be cheered nor padded –even if your family loves you, that doesn't mean they can understand you. There will be tears ... yes; anger ... that too; disappointment ... ugh, but it would hurt me much more if I keep living a lie.

They raised me to honor the truth and that is what I will do now. I am a woman of the XXI century, determined and brave, willing to learn about my femininity. It will be fun. And yes, not everything will blast into laughter; there will also be some tragedy mostly because as a woman I have lived the first 18 years of my life trapped in the body of a man. I am a two spirits.
