Logline

"Moments" tells the story of Diego, an aspiring comic book illustrator, and his group of friends and how they face life changes.

Storyline

Diego, a noble and sensitive young man, has been drawing a comic that tells his life and his friends stories. Because of the insecurity of not feeling talented, he does not dare to publish it on social networks. His fears and the loss of a loved one will cause him to contemplate abandoning his greatest dream, while discovering love for the first time in Fernanda, his best friend, who does not realize how beautiful it is inside and out.

Moments come at a time where stalking the person we like, #usehashtags, giving our ex unfollow, writing with little faces and giving like to the instants that our friends post, has become our way of expressing what we feel, exposing our intimacy, but it is those moments that we keep for us, those that remain forever in our hearts. That's why "Moments" is not only a television show, is the portrait of a generation that knows that everyone # **Drawyourdreams**
