Synopsis

During a school camp, Héctor, Fausto, and Emilia enter into a cave in Palenque to scare Joaquín, a classmate they bully. However, Joaquín disappears and they think he's dead, but he actually travelled in time back to VII century's Palenque, where he has to help a twelve-year-old Pacal, to take the Mayan throne. In the meantime, his classmates start receiving messages from him and seeing terrifying illusions that make them think it's a revenge from the afterlife. In the end, they realize that those are clues to travel in time and help Joaquín and the Mayan emperor. Kin is a mystery series made for children of 6-12 years.
