Synopsis

There is nothing left, but us!

Many theories claim the world is coming to an end...soon. That is the cornerstone behind Year Zero: a catastrophe is about to destroy everything, global warming has changed the temperature of the Earth and a great cataclysm is about to come. That is why 22 intrepid people must take refuge in the desert looking for a safe place away from tsunamis...once this happens they will start a long journey back to civilization looking for a place to inhabit and re-establish society. This is exactly the leitmotiv of Year Zero: to build a better society. To achieve this, 22 survivors —11 men and 11 women— each one possesses a very special characteristic worth to be preserved in the future. They will do everything to be crowned as the best man and woman of all humankind.

This man and woman will be chosen according to their ability to survive and adapt to new life conditions.
